

SLIPFORGE

Universal Receipt Generator

Offline

No Sign-up

No Cloud

PDF Export

1. What is SlipForge?

SlipForge is a fully **offline, browser-based receipt generator**. It lets you create, preview, download, and share professional receipts as PDF — with no sign-up, no cloud upload, and no data ever leaving your computer. Everything is stored securely in your browser's local storage.

2. Features

Feature	Description
Receipt Creation	Business info, client details, line items with auto-calculation
Tax & Currency	Set default tax rate and currency globally via Settings
PDF Download	Export receipts as PDF using html-to-image + jsPDF
WhatsApp Share	Share receipts directly as a PDF attachment via WhatsApp
Print Support	Print receipts directly from the browser
Receipt History	Last 50 receipts saved automatically in local storage
Draft Auto-Save	Form data persists if you navigate away mid-entry
Dark Mode	Full dark mode support across the entire interface
Responsive UI	Works seamlessly on desktop and mobile browsers
Logo Upload	Optional business logo (PNG, JPEG, WebP — max 2 MB)
Custom Prefix	Set a custom receipt number prefix (e.g. RCP → RCP-XXXXXXXX)

3. How to Run

Requirements

- Node.js v18 or later installed on your computer

Development Setup (Step by Step)

- **a)** Open a terminal in the project folder
- **b)** Install dependencies (one-time only):

```
npm install
```

- **c)** Start the development server:

```
npm run dev
```

- **d)** Open the URL shown in terminal (typically `http://localhost:5173`)

Build for Production

Run the following command to generate a **dist** folder you can host anywhere:

```
npm run build
```

Run Tests

```
npm test
```

4. Configuring Business Name, Currency, Tax Rate & Logo

All global defaults are managed from the **Global Shop Settings** page. Navigate there by clicking the  **Settings** icon in the top-right navigation bar. Changes auto-save to local storage and apply to all new receipts.

Section	Setting	Description
	Default Business Name	Pre-fills on every new receipt
	Tax ID / VAT Number	Appears on all receipts
Business Details	Business Address	Multi-line address field
	Phone Number	Contact phone for receipts
	Email Address	Contact email for receipts
Branding	Business Logo	PNG/JPEG/WebP, max 2 MB
	Default Tax Rate (%)	e.g. 10 for 10%
Defaults	Default Currency	e.g. USD, EUR, GBP, INR
	Receipt Number Prefix	e.g. RCP → RCP-XXXXXXXX

Note: The business name, tax rate, and currency set in Settings will automatically populate the Data Entry form when you navigate to it.
